Kushagra Pandey

New York, NY | kushagrapandeyy@gmail.com | LinkedIn | GitHub | kushagrapandey.com

Software engineer based in New York, NY, and founder of Firmlytic. Graduated from Arizona State University in May 2026 with a B.S. in Computer Science and a film minor.

EXPERIENCE

Firmlytic Solutions Jan 2024 - Present
Founder | New Delhi, India
- Lead product and engineering for Sainya Mitra, an AI legal SaaS in beta with a law firm. The beta supports case records, tracking, and linked client accounts.
- Build React interfaces, Node.js services, Hasura data access, and AWS infrastructure. Integrated Claude for document summaries, tagging, and clause extraction. AI output is under evaluation. Human review is essential.
- Maintain tests, deployment documentation, Cloudflare WAF, and IAM access controls. Built OCR Scanflow, a separate document-processing prototype for a prospective client.

Arizona State University Oct 2024 - May 2026
Production Assistant, Enterprise Brand & Strategy Management | Tempe, AZ
- Supported production handoffs with Wrike, AudioNetwork, and SRT workflows. Proposed NAS-based file sharing.

SS Pandey & Associates Aug 2023 - Jan 2024
Junior Developer | New Delhi, India (Hybrid)
- Rebuilt a LAN-dependent document workflow as a Spring Boot service with JWT-secured REST APIs for remote access.
- Added caching to address repeated-request latency across cloud and on-premise systems.

CyberSophy Jun 2023 - Aug 2023
Software Intern | Hyderabad, India
- Built a Python data-collection pipeline with Selenium and BeautifulSoup. Used MongoDB indexing and deduplication to improve retrieval and avoid redundant storage.

ACADEMIC PROJECTS

Lyra Aug 2025 - May 2026
Primary Engineer, Sponsored ASU Capstone
- Primary engineer for the completed Spring 2026 ASU capstone, sponsored by Jay Manwani of Endless Moments LLC. Built a React, FastAPI, and PostgreSQL application with weighted matching and AI-assisted recommendations.

Grocery Price Tracker Jan 2025 - May 2025
Database Management Project
- Built a course-scoped price tracker with React, Node.js, and PostgreSQL. Implemented basket comparisons, caching, and alerts tested with simulated price updates.

Sales Analytics Dashboard Sep 2024
Developer & Data Analyst
- Analyzed a Kaggle retail dataset with Pandas and NumPy. Presented seasonality, regional comparisons, and correlations in React and D3.js.

EDUCATION

Arizona State University Graduated May 2026
B.S. in Computer Science | Minor in Film and Media Production

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Java, SQL, C/C++, Swift
Frontend & interaction: React, Next.js, HTML/CSS, Tailwind CSS, Framer Motion, Expo, D3.js
Backend & APIs: Node.js, FastAPI, Spring Boot, REST APIs, Microservices
Data systems: PostgreSQL, MySQL, MongoDB, Redis, Hasura
Cloud & infrastructure: AWS EC2, AWS Lambda, DynamoDB, Docker, Cloudflare, Vercel, Render
AI & developer tools: Claude API, OpenAI API, Gemini API, Codex, Claude Code, Git/GitHub
